Hey Everyone!

Here is a brief summary about the Riverside Agricultural Park, CA, petition. Libby, please add anything if I missed something.

On March 25, 2016, ATSDR received a petition request for the Riverside Agricultural Park, CA from the City of Riverside. This is a state cleanup site. Previously a sewage treatment plant was located at what is now the Agricultural Park. A local industry discharged PCBs into the sewage treatment system. PCB contaminated sewage sludge and the sludge was spilled/disposed on land near the former sewage treatment plant and contaminated the soil and potentially ran off the property. During a proposed residential development planning, the PCB contamination was

discovered. CA DTSC supervised the initial clean (soil remediation). Follow-up investigations indicated that the original remediation may not have removed all of the PCB contamination above the remedial goal. Since then CA DTSC has been working with EPA to conduct a more thorough remedial investigation on- and off-site (no off-site sampling has been conducted yet). The people living next to the Agricultural Park are concerned that the PCB contamination may have migrated on the land that was used to create their neighborhoods. ATSDR should finish with our evaluation of the petition by the end of this summer.

Please let Libby and me know if you have any questions.

Sven

Ileana/Tina/Alan

Heads up

Rafael Elizalde (District Director) and Melanie Ling (Congressional Services Representative for Takano's Office) would like to schedule a phone call with EPA this week regarding the Ag Park project in Riverside, CA.

Not knowing specifically what the call is about, I would ask that we find out before committing staff. Eric should be able to reach out to Ling's office for some additional context.

Before bringing Eric and OPPE folks into the discussion, can someone please provide this email group with a brief summary of ATSDR's involvement with this project in CA?

Any other questions from the group?

Thanks,

Kerry

Hey Libby!

I have cc'ed Kerry on this e-mail so that she can provide her thoughts and guidance concerning Congressman Takano's staff request to EPA Region IX for a briefing.

Is EPA 9 asking that we attend?? I am not sure we should attend without a specific request. Kerry, what are your thoughts??

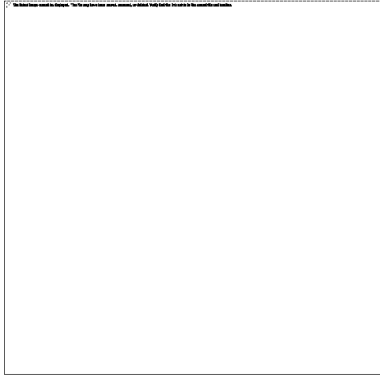

Do we know what specifically the staffer wants to talk about? We would need to know that so we can develop some talking points.

Hi Sven,

See below. EPA is having a meeting to discuss the request from US Representative Takano's Office.

Do you want to be on the call and who do we notify at ATSDR? Is it Kerry Stephens.

I'm teleworking today if you want to discuss.

Thanks.
